2K

Fee Collected

13M

Business Definitions

Application A formal request submitted by a student for admission to the university.

Enquiry An initial expression of interest in a course or admission process.

Conditional Offer An admission offer that requires the student to meet specified conditions.

Unconditional Offer An admission offer granted without any remaining conditions.

Enrolled A student who has successfully completed the admission process and joined the university.

Withdrawn An application that has been cancelled by the student or the university.

Total Fee The complete tuition fee required for the selected course or program

.Fee Paid The amount of tuition fee already paid by the student.

Dashboard Summary

This dashboard provides a complete overview of university admission performance. It tracks student applications, admission stages, enrollments, fee collection, agent performance, campus performance, and course demand. The report helps management identify application trends, improve conversion rates, monitor outstanding fees, and support data-driven admission decisions.
